AUTHORIZATION FOR SURGERY

I hereby authorize performance of the following surgical procedure(s) _____

on the following pet(s) _____.

PLEASE REQUEST OR REJECT THESE OPTIONAL PROCEDURES:

PRE-SURGICAL BLOOD TESTING:

Includes a blood chemistry evaluation that checks liver and kidney values, blood glucose, and protein levels.

REQUEST:

REJECT:

ADVANCED PRE-SURGICAL BLOOD TESTING:

Includes the above blood chemistry evaluation as well as a complete blood count and clotting panel.

REQUEST:

REJECT:

ADVANCED MONITORING:

SurgiVet multi-parameter monitoring system tracks: blood pressure, ECG with heart rate, end tidal CO₂, temperature, and specific pulse-oximetry during your pets surgery to optimal anesthesia and patient monitoring.

REQUEST:

REJECT:

HISTOPATHOLOGY: (on Doctor recommendation)

Tumors/growths will be sent to laboratory for comprehensive testing.

OK IF DR RECOMMENDS:

REQUEST:

REJECT:

POST-SURGICAL PAIN MEDICATION

This includes an injection of pain medication while in the hospital as well as 4 – 7 days worth of medicine to be given at home orally.

REQUEST:

REJECT:

RADIOWAVE SURGERY

Radiowave surgery is an advanced technological instrument that can be used for any surgical procedure. Your pet will have a shorter time under anesthesia, quicker healing time, and lower risk of infection. It also decreases bleedings and pain after surgery.

REQUEST:

REJECT:

MISCELLANEOUS:

NAIL TRIM/FILE

EAR CLEANING

FULL EXAM

DENTAL CLEANING

BRUSH OUT/CLIP MATTS

APPLY FLEA PREVENTION
